matrix trading

Bond swap strategy designed to **profit** from unusual **yield curve differentials** between **bonds** of different **ratings** or **classes**. This strategy tries to **take** advantage of situations in which differences in **yields** between different **bond** classes are not reflective of the differences in **risk** associated with those bond classes.

A Caution on Fancy Financial Instruments

There are a lot of financial instruments available on the open markets investments. However, a lot of them get fancy and become complicated so if you just don't quite understand what you're getting into, don't invest in it. There is a reason for all ... [Read More](#)
